## Blairmore To Hold Crow 'Spiel In 1950

Curlers Enjoyed Turkey Supper; Fernie Arena May Not Be Ready Until 1951

C. N. P. Curling Association held its annual banquet in Turtle Mountain Playgrounds on Tuesday evening and despite bitterly cold weather a near capacity turn-out sat down to a sumptuous turkey supper. Association president George Ford presided.

Mr. Ford thanked all rinks for entering the 'spiel and had particular praise for the five Taber rinks entered. He told them they were swell sports and the Association was proud to have them in its midst. He also thanked the lone Lethbridge rink for its attendance. He expressed disappointment at the small entry from Pass clubs and hoped they would enter in greater numbers next year.

This bonspiel had rightfully belonged to Fernie but floods last spring had ruined the B. C. arena and it was expected at least two to three years would elapse before the arena could be made ready for play. Coleman had received and accepted the invitation to sponsor the 'spiel this year and it had been decided to have Blairmore sponsor the 'spiel in 1950-51, the invitation to the Blairmore club having been accepted by Mr. Harold Culham.

Mr. Stewart, of Fernie, expressed his club's regret at not being able to sponsor the 'spiel this year but stated that Fernie would, in a year or two, have its arena repaired. In the meantime he assured the Association that Fernie curlers would continue to cross the Alta-B.C. border in search of bonspiel honours.

Wm. Kerr, veteran curler, spoke briefly on the merits of the "running" game and the draw shot game. He had travelled to Calgary to see the touring Scottish curlers who were draw shot artists and it was Mr. Kerr's opinion that the draw shot was the better game. Talking on old-time curlers who played the running game to perfection he described them as strong in arm and keen of eye, mentioning Jack Kelly, of Pincher Creek; Jim Hansen, of Bellevue and Sammy Moores of Coleman, has men who threw a mighty fast rock.

Tom Strain, of Taber, spoke on behalf of his clubmates and in humorous vein told how all were enjoying themselves.

Mr. Bond, of Lethbridge, also told of the enjoyment he and his rink were receiving in 'Spiel competition.

Board of Trade president Percy Dickieson had the film of Coleman Rodeo at the banquet and screened it for the delighted gathering.

## FORMER COLEMAN MAN IN AUTO ACCIDENT

Mrs. Sam Colley received word during the past week that her nephew, Ronald Hadfield was involved in an auto accident at Vancouver.

Five persons were removed to the hospital following a head-on collision between two cars including Ronald. All five were reported however to be showing favorable improvement and expected to be discharged shortly.

This constitutes a miraculous escape as both cars were completely demolished.

## J. J. McIntyre Again Heads Operators

J. J. McIntyre, Coleman, was re-elected president of Western Bluminoous Coal Operators' Association at the association's annual meeting here Saturday.

Other officers re-elected were: A. D. Sturrock, Nordges, vice-president, and William C. Whitaker, Calgary, secretary-treasurer.

The association's executive committee will consist of Mr. McIntyre, Mr. Sturrock, Mr. Whitaker and T. H. Wilson, of Fernie, B.C.

## AROUND THE ARENA

The official opening of the 1948-49 of the Coleman Pee-Wee Hockey League took place on Saturday, Jan. 8. In a couple of rousing matches featured by close checking and keen rivalry the Pattinsons scored a 2-0 victory over the Elks while the Lions eked out a 1-0 win over the Legionnaires.

On Saturday, Jan. 15, Pattinsons and the Lions kept their unbeaten records intact by scoring narrow 1-0 and 2-1 triumphs over the Legionnaires and Elks respectively.

One feature of the play has been the closeness of competition among the four clubs in the loop.

Another outstanding feature has been the refereeing of the juveniles and midgets who have volunteered to help their younger fellow sportsmen.

A noticeable rivalry and keenness has been displayed by these Pee-Wees who are developing a spirit of play rather than a love of playing to the crowd.

A social hour was enjoyed with several artists taking part in song and story.

A most acceptable gift to the menu by the Taber curlers was corn on the cob. The Kerr family is to be commended on serving such a splendid meal which brought forth favorable comment from over a hundred hungry curlers.

## Crow Bonspiel Roaring To It's Completion

Antle Wins International Cup; Ruymaker Fights Back To Cop Grand-Cos. Trophy Under Pressure.

The Bill Antle rink emerged as the first major winners in the Crow bonspiel Thursday as they beat out the Ruymaker rink of Bellevue for the International trophy.

Under Bill's skipping were Bill Martland, Joe Malan-chuck and Alex. Balloch.

Two hours later the Ruymaker rink fought back, trimming the Jenkins Bros. rink for the Grand-Cos. Cup.

## Grands Driving Hard For League Title

Cranbrook Outplayed 6-2 On Their Own Ice.

Coming right back after trouncing Blairmore 9-4 earlier in the week Coleman Grands travelled to Cranbrook on Sunday last and set the Legionnaires back on their heels by a 6-2 count.

Irvin Frew really has the locals flying right now and it augurs well for the Western Canada Intermediate playoffs just around the corner.

With Veterans Jimmy Joyce and Billy Fraser performing like juniors with their eyes on the N.H.L., the club has settled down to play the type of hockey necessary to regain the Western Canada crown.

Younger members of the squad such as Collings, Ford, Hudz and Belgan are helping the veterans to knit the club into a real championship contending machine.

People shop where they are invited—that's why it pays to advertise.

## High School Student Body Plans Revival Of Year Book

John Graham, Peter Allen, Joan Johnson and Jean Parker Elected as Prom Committee.

The new term's first meeting of the Coleman High School Students Union was held recently with President Frances Sikora in the chair.

Major item under discussion was the revival of the Year Book, last published in 1942. It appears likely that the Union will sponsor the publication of a Year Book in the coming year as the majority of students expressed a wish to possess a tangible reminder of their High School days.

The student body expressed a desire to stage an elaborate "Prom" next June and chose a committee of four, John Graham, Peter Allen, Joan Johnson and Jean Parker to start the ball rolling early for this eagerly awaited annual event.

Miss Sikora announced on Friday last that the Union's first social event of 1949 will be the High School dance to be held on January 28.

Adam Kryczka of the Patts by virtue of two shutouts is the leading goaltender but the race is very close as Stanley Saloff of the Lions has turned in a couple of smart displays, allowing only one goal.			

## Harry Gardner Now Supt. Of West Canadian Collieries

Blairmore-Western Canadian Colliers' new general superintendent, H. H. "Harry" Gardner, is a native Albertan. He was born in Wetaskiwin and received his public and high school education in Edmonton.

His career in coal mining began in the Edmonton area in 1924, moving to the Crows Nest Pass in 1926. But he left the Pass a year later to enrol in mining engineering in the University of Alberta, working during the summer vacations for International Coal & Coke in Coleman.

Two years later, in 1929, Mr. Gardner obtained his mine surveyor's papers for the province of Alberta, receiving similar papers for B.C. the following year. He then spent two years as mine surveyor with Corbin Collieries at Corbin, B.C.

Wins Award  
On graduation from the University of Alberta in 1933 with the degree of B.Sc., he won the Stutchbury Memorial Award.

and in the same year he was awarded a prize in the Institute Students' Competition for his paper "Mining Methods at Corbin, B.C."

Following graduation, Mr. Gardner was overman and engineer with International Coal and Coke in Coleman and during that time gained his mine manager's certificate. Soon after he was appointed engineer and then mine manager for the McGillivray Creek Coal & Coke Co. at Coleman.

It wasn't until 1941 that Mr. Gardner came to West Canadian Collieries as assistant manager of the Greenhill mine. He was appointed manager and later manager of West Canadian's Adanac mine near Bellevue. He came from Adanac to the head office of West Canadian Collieries as general superintendent.

## J.M. Allan Delivery Truck Stolen Tuesday Night

Recovered At Burmis By Police; Culprits Nabbed In Burmis Bunkhouse.

Quick action by the R. C. M. P. brought the truck stealing careers of two Coleman men to an abrupt end at the Blairmore courthouse on Wednesday afternoon, when Charles Lavallee and George Turner, employed at local mines were sentenced to two years and one year respectively for their futile efforts to steal and drive eastward the J. M. Allan delivery truck. The vehicle was stolen while parked on Main street in front of the Cell Block late Tuesday night. Police spotted it in the ditch alongside the highway near Burmis where the thieves had left it after desperate attempts to get it back on the road.

Questioned at the nearby bunkhouse of the Lumber Company the pair's evasive tactics plus complaints of Mill officials prompted the Mounties to effect an immediate arrest. Only slight damage was done to the truck itself.

## Grands Display Great Form At Blairmore

Crush Bearcats 9 4 In Bruising Struggle At Blairmore Arena

Bearcats Crushed 9-4 As Locals Recover Winning Style.

Irvin Frew was chewing his cigar contentedly on Thursday night last following his club's slambang shindig with the Blairmore Bearcats at Blairmore arena.

Led by Bill Fraser and Jimmy Joyce, the Grands played it high, wide and handsome all the way to increase their lead in the A.B.C. League standings.

Both clubs scored twice in the opening stanza but the Grands started taking over in the 2nd although their margin of superiority was only 5-4 as the period ended.

The final canto saw the Coleman crew establish their win beyond a doubt as they drove a quartette of markers without reply from the outclassed Bearcats.

A near riot featured the closing stages of the game as Chick Roughend went a couple of fast rounds with the 'Cats netminder, Francis Cantonio.

The restoration of peace saw Roughend, Cantonio and Joe Pavlus, who had also worked his way into the act, banished to the "Bad Boy Box" for their determined efforts to enliven proceedings.

Goalkeepers for Coleman were Collings and Gettman with a brace a piece and singlets by Joyce, Ford, Saroff, Fraser and Roughend. Cerney, with two, Lucenti and Takanaka tallied for Blairmore.

LINEUPS:  
Coleman — McDonald; Joyce and Beigan; Hudz; Collings and Ford; Cherry, Saroff, Silvers, Pavlus, Fraser and Gettman.  
Blairmore — F. Cantonio; Trotz and Jenkins; Veiprava; T. Cantonio and Cerney; Lucenti, Smith, Orlando, Pabin, Marcuca, Thornton, Takanaka and Brown.

Children will be admitted only when accompanied by adults.

## A Hopeful Prospect

PREDICTIONS OF FUTURE EVENTS do not always prove to be accurate, but when they are based on facts which have been carefully investigated, and after a thorough study of the subjects involved, they are well worth interest and consideration. Recently economists, statisticians and others who are in positions which bring them closely in touch with industrial and economic trends in Canada, gave their opinions as to the prospects for prosperity and progress in this country during 1949. These experts were in agreement that there will be continued prosperity here during the coming year, with expectations that there will be even greater expansion in some fields. National income is expected to continue to rise and present maximum employment levels are considered unlikely to change. It is forecast that there will be expansion in certain key industries, that new investments will continue to stand at record levels and that business on the whole will be "good".

### Outlook Good For Farmers

In respect to agriculture, the predictions are also optimistic, although there are some factors which cannot be considered to be encouraging. The expiration of some British food contracts will no doubt affect this important industry adversely, but there are other prospects which are more hopeful. The prices of farm products are expected to remain at the present high levels, which have brought good returns to the farmers for the past few years. It is also pointed out that there is an assured British market for wheat, at least until the end of the present crop year. The fact that national income is expected to remain high and that there is little prospect of unemployment, or other conditions related to a depression, augurs well for the farmer whose prosperity is linked with the general economic welfare of the country.

### Building For The Future

There has been a marked improvement in labor-management relations during the past few months, and increasingly fewer man-hours have been lost through strikes and shutouts. Experts in this field are of the opinion that these good relations are likely to continue with consequent beneficial results for industry as a whole. There are many other factors in the industrial and economic life of the country, but the ones given here indicate that the present trend is toward continued prosperity. Such prosperity provides not only an opportunity for expansion, but for the building of solid foundations for the future in the development of our industries and natural resources. It has already been shown that the farmers have been using their increased incomes to pay off debts on land and equipment and to increase their security for the future. While it is to be hoped that the predictions for 1950 will be as hopeful and confident as those which have been made for 1949, it should be kept in mind that while we are enjoying prosperity we should at the same time be building wisely and carefully for the years to come.

### Alberta May Be New Source For Goldeye Fish

OTTAWA.—Increased commercial supplies of the famous goldeye, which in recent years has been disappearing from the tables of connoisseurs of tasty fish, are likely to come from a new northern Alberta source.

At a session of the annual meeting of the fisheries research board here, a report was given by Dr. K. H. Doan, acting director of the central fisheries research station at Winnipeg, on results of the new goldeye fishing experiment at Lake Claire, near Lake Athabasca in northern Alberta.

After an initial survey in 1947, the catch limit of the lake (in June, 1948) was set at 250,000 pounds. Fishermen actually reached only about a quarter of that limit, or 65,000 pounds.

That was because of bad weather conditions, but Dr. Doan said, there were enough goldeye to supply the limit.

This experience points to an important new source of the fish which has Manitoba's monopoly up to now.

The commercial catch of goldeye in Manitoba used to run to several hundred thousand pounds a year, but it has been going steadily down, and in 1947 reached only 82,000 pounds. Most of that came from Lake Winnipeg, Winnipegosis and Cedar Lake.

The mountains of Burma are part of the earth's original crust and are among the oldest in the world.

## How To Get Quick Relief From Sore, Painful Piles

I can help most pile sufferers. I believe I can help you too if you want relief from the itching, soreness and burning pain of piles.

My Hem-Roid treatment is different. Hem-Roid is an internal medicine — a small tablet taken with a glass of water. It corrects the conditions INSIDE your body that cause you such intense pile soreness and pain.

But I'll be honest with you. Hem-Roid seems to help some pile sufferers more than others so I want to protect those who are not satisfied. I refuse to ask people to pay for something that does

### Pine Falls Golfer Wins Battle Against Polio

WINNIPEG. — When young Billy Roy of Pine Falls, winner of a couple of Manitoba junior golf championships, triumphed through fairways and greens following his favorite pastime, he little knew it would save him from permanent paralysis.

After playing one round in the Manitoba open tournament last August, Billy fell victim to poliomyelitis. Doctors who have been seeing a lot of him in Winnipeg General Hospital are unanimous in their opinion that he ward off the crippling blow of poliomyelitis only because of his strong legs and stomach muscles, developed over the miles he walked on Pine Falls and other courses.

Back in September, Billy's legs were heavy and all but dead. But slowly and surely therapy worked its wonders. Billy has the use of both legs now, and the doctors say golf will put him back on his feet in earnest. They're encouraging him to hit the ball as soon as possible.

Meantime a shiny three iron and putter decorate his room. His bedside table is littered with back copies of golf magazines. Billy says he'll be back at the first tee when the first grass peeks its head at Pine Falls next spring.

### Man Plays Tag With Timber Wolves

FLIN FLON.—Eddie Carate is telling a strange story of how he played tag with two timber wolves on Dead Horse lake recently.

Saying a car, Carate said he chased the dog wolf clear across the lake but could not run it down because of the heavy snow. At one time, he said, he was going 35 miles an hour.

He said that each time he hit heavy snow the wolf sat down and waited for him to catch up. Unable to drive down that wolf, he turned to his mate, which started to run in a circle and kept it up for about six laps. Carate said he couldn't catch up with it, either, and he became so disgusted he got out of the car and yelled mad things at it, but the wolf just sat and stared at him.

MATE FOR LIFE

Wolves usually mate for life. On the North American continent there are two species of wolves—the red wolf and the gray. The gray being much heavier than the red. 2812

### Modern Methods Needed

Women do a great deal of the back-breaking labor in the fields. In the above picture they are hoeing potatoes.

Dairy maids are important helpers in the German farming picture. The cattle are probably of the Friesian breed.

### FUNNY And OTHERWISE

The sweet young thing was entertaining her new boy friend and was trying to switch the conversation from turkey dinners.

"You like 'tuck'?" asked the sweet young thing.

"Naw!" answered the new boy friend. "Gimme de drumstick every time."

"You are charged with refusing to move when the Guard asked you to do so."

"Yes, your Worship."

"Have you nothing to say in your defence? What is your occupation?"

"Professional Chess Player."

"I don't understand why a handsome boy like John could marry an ugly woman twenty years his senior!"

"When you want banknotes, you don't look at their dates!"

"You have fits of giggles?" the doctor asked a patient.

"No, I don't," she snapped.

"I'm a respectable married woman."

There are two periods in a man's life when he fails to understand women—before marriage and after marriage.

Maybe you've heard the one about the pastor who was instructing one of the younger classes in proper living.

"What are the sins of commission?" he asked. "Can any of you young people tell me?"

"Please, sir," said a meek little maid in the back, "they're the sins we ought to have committed, and haven't."

An American walked into an English shop and demanded a packet of twenty cigarettes.

"Only Tuesdays and Fridays," said the assistant.

"Never heard of them," said the American, "but I'll try a packet."

### THE TILERS

### Typographical Errors Plague Of Editors, Readers Delight

RUTHERFORD, N.J.—Typographical errors, the plague of editors, but the delight of newspaper readers, are no respecters of persons or professions.

In a recent issue of Medical Economics, national business magazine for physicians, a rich harvest of printing blunders at the expense of doctors is collected under the heading "Misprints with a Medical Slant."

One of the classic examples is the one first printed by the St. Louis (Mo.) Globe-Democrat. It reads: "The physician felt the patient's pulse and decided that there was no hope."

Typographical blunders with provocative trend abound in the Medical Economics compilation. There is, for example, the Weights (Kan.) Gazette's report of a Kansas surgeon who was quitting active practice: "Dr. S., one of our most eligible bachelors, is retiring from practice. Hale and hearty at 65, the doctor says all he wants is a little peach and a little rock."

The Little Rock (Ark.) Gazette was guilty of: "Dr. P.—returned from Baltimore yesterday and will take up his duties at the hospital."

The renowned Dr. Mayo had plenty of cause to blush at the item in the Fairmont (N.D.) Sentinel, which stated: "Mr. and Mrs. R.—left Wednesday for Rochester, Minn., where Mrs. R.—expects to have a garter removed by the Mayo brothers."

Married bliss was the unintentional butt of an announcement in the Columbus (Ga.) Dispatch. "Recovered from a head injury and shook caused by coming in contact with a live wire, Mr. E.—left Mercy Hospital last Wednesday."

The second, which appeared in the Franklin (Pa.) News-Herald, read: "The donation will be used to purchase new venches for the hospital, as the old ones are in a dilapidated state."

The Norfolk (Va.) Virginian-Pilot carried this revealing story: "Miss R.—, an attractive young health nurse, was involved in an accident while motoring in the Cumberland yesterday. The area in which she was injured is spectacularly scenic."

Other newspaper stories in which the "double-entendre" caused chuckles were:

"The operator of the log truck, charged with reckless driving, crashed into Dr. A.—'s rear end, which was sticking out into the road."—Greenville (S. C.) Piedmont.

"He was taken to St. Luke's Hospital for treatment, but left there this morning with no bones broken."—Atlanta (Ga.) Journal.

## THRILLS OF the ROARIN' GAME

WINNIPEG. — Western curlers have taken a leaf out of the boxing text by using the "knockout" as their Sunday punch.

Leading authorities on curling in this hot-bed of the "roarin' game" will tell you that the knockout, one of curling's two distinctive styles of play, has become the big difference between the east and west.

Introduced on the prairies about 1890 and popular ever since, the knockout has been the trump play of western curlers who have copped 23 of 25 Dominion Curling championships.

The spool-winning style calls for a fast shot aimed to clear all the opposing rink's stones from the house. It requires strong-armed sweeping and nifty skipping.

The draw style, stand-by of easterners, is a slow rock which curlers attempt to sweep or hook around an

opponent's and into the house.

"The fact that the east has won the tankard only twice indicates the west's style is superior," says Sen. J. T. Haig of Winnipeg, one of the trustees of the Brier Tankard, who has witnessed all but one of the 23 Dominion Curling championships. "But our style is not exclusively knockout. It never was. We play a combination knockout and draw game."

Gordon Hudson, champion skip in 1928 and 1929, thinks the west's marked superiority over the east in Brier competition is easily explained. Westerners are masters of the knockout and at the same time can play the draw as well as eastern curlers.

Bob Courley, 1931 champion, says good curling "has got to be a combination knockout and draw. Both styles require skill and a champion skip has to be good at both." Bob's strong game is the draw.

Sen. Haig prefers to call the robust western style a "running" or "fast" game. "We play rocks faster," he says.

"It's a chip-and-lie game," says Hudson, who also objects to the term knockout. "We use it for a dual purpose: to get rid of our opponent's stone and at the same time save our own. By knocking the other stone about half on, we can send it out of the house and still keep ours in."

Sen. Haig, like Hudson, declares, "You've got to have more skill to play a running game. It requires more accurate curling than the draw. In the draw, you can miss the broom and still get your rock in the house some place. But in the running game, if you miss the broom you get nothing."

Courley says the west "plays more of an open house game than the east. We don't try to score on every end but play more for the last rock and that big count on the last end in a close game."

Most of the west's "finest," the men who captured the Dominion Curling championship, use the knockout and its tell-tale blows.—Winnipeg Free Press.

## Immigrant Target Set At 125,000

OTTAWA. — By the end of this year, Canada will have taken in around 400,000 immigrants since the end of the war, if immigration officials are right in their estimate of a record 125,000 new settlers in 1949. This latter figure is the largest, it was learned.

To the end of 1948, immigrants of all kinds, including displaced persons totalled nearly 300,000. In 1948 there were over 100,000, most of them from Britain.

This year's objective relies on improved transport by sea and air. Bookings are going ahead rapidly on all Atlantic liners. The demand for passage is still running ahead of available passenger space, but officials believe that the situation is slowly getting better.

Permanent licence plates will be issued for motor vehicles in 1950 under a plan awaiting final approval by the Manitoba cabinet. Meantime current plates will be left on the cars for 1949, owners being given a small aluminum "49" tag to cover the "48" figure.

SOME PRICED TURKEY

KINISTINO, Sask. — A plain, unadorned turkey sold for \$1,355 at an auction in this town of 700 and will pay for the floorings in the new Canadian Legion hall. The bird was left over from a banquet and "sold" 21 times, highest single bid being \$150.

COWS GET TIGHT

VANCOUVER, B.C. — George Brown had to milk his cows while they were lying down. They had been on a binge. Investigation revealed the cows had been eating fallen apples which had fermented.

TESTED CATTLE TO BE BRANDED

OTTAWA. — The agriculture department announcing new regulations for identifying cattle which have reacted to tests for Bang's disease and tuberculosis.

Cattle reacting to the Bang's test must be branded with a large "B" on the right cheek with those reacting to the tuberculin test must carry a "T" brand on the left cheek. Formerly the letter "B" was tattooed in the right ear and the "T" was punched, also in the right ear.

PLAN TO KEEP ROADS OPEN

REGINA. — The provincial highways department plans to keep 4,000 miles in road clear of snow as long as possible this winter. Hon. J. T. Douglas has announced. If conditions become too difficult for the equipment to handle, the department will concentrate on "most vital arteries."

# WORLD HAPPENINGS

## BRIEFLY TOLD

Two newlyweds and 11 guests to their wedding feast were killed when a bus fell through a wooden bridge near Shanghai.

The British cruiser Sussex recently sailed from Hong Kong for Portsmouth, England, where she will be decommissioned.

Prime Minister Attlee and Foreign Secretary Bevin sent to Burma messages of congratulation on the first anniversary of the country's independence.

The three services in Canada are preparing an intensified offensive for recruits in 1949 to push their numbers from 30,000 to as far beyond 40,000 as possible.

A Swedish trawler, the Salma, missing for 10 days, returned to Stockholm and reported she had been boarded and returned by Russian coast guards.

Thirty-six live mink and 14 live nutria consigned by Ontario and British Columbia breeders to fur farms near Colchester, Essex, have arrived in Britain by air.

Three bills to repeal federal taxes on oleomargarine have been introduced in the United States house of representatives. Federal oleo taxes are one-fourth cent a pound on the uncolored product and 10 cents on colored.

A new star with a volume 1,000 times that of the sun has been discovered by a Victoria scientist. Dr. Joseph Pearce, director of the Dominion astrophysical observatory in Victoria, said the new star will be named after the University of British Columbia.

## SPORT

### Notes From N.H.L.

#### Thompson The Mortician

Cliff Thompson, Boston Bruins' American-born defenseman who has replaced rookie Ed Krysanowski on the Beantowners rearward, is a mortician at Stoneham, Mass., when not knocking opposing players on their pants. Cliff is 28 years old, weighs 180 pounds and stands 5' 11 1/2" in height. He spent 27 months overseas with a U.S. Army tank destroyer outfit that saw action at Anzio, Southern France, Austria and Germany.

#### Leafs, Rangers Out Says Conacher

Burly Charlie Conacher, coach of the Chicago Black Hawks, stated recently that he didn't think Rangers or Toronto would make the Stanley Cup playoffs this season. He didn't elaborate much on his statement other than to say both clubs didn't have it this year.

#### Less Players This Year

One hundred and twenty players have participated in N.H.L. games during the first half of the 1948-49 season. This is seven less than played in the League during the first half of last season. 2512

## Sweet Pea Wins Scottish Laurels

A NEW sweet pea for 1949 is the Margaret O'Brien, which David Burpee has named for the little movie picture star.

Winner of the gold medal of the

The Margaret O'Brien sweet pea is of the giant Spencer type.

world-famous Scottish National Sweet Pea Society, the new flower is described as salmon-coral suffused with a luminous orange. In sunlight, the salmon-coral tones are predominant; indoors, under artificial light, the orange tones are accentuated.

The Margaret O'Brien sweet pea is adapted for growing in home gardens and is of the Giant Spencer type. Stems are long and sturdy and the foliage is a mid-green color. The plants are vigorous and blossom profusely.

The new flower was developed by the W. Atlee Burpee Co. from a cross between an early blooming variety of sweet pea used for greenhouse culture and a summer-flowering giant seedling. The cross was made in 1939 and selections were made each year until the stock was breeding true. In 1947, there was enough of the seed to enter it in the Scottish National Sweet Pea Society Trials. In this international competition of sweet peas judged during trial growings and a subsequent show held in Glasgow, the new Burpee sweet pea won the Society's highest award.

## Cold Job! Delivering Water

SASKATOON.—Delivering 12,000 gallons of water weekly to about 100 homes on Saskatoon's North Park district every winter is the job of E. J. Trowbridge, who has had charge of one of the city's nine water delivery routes for the last 24 years.

Undeterred by snowdrifts and cold weather which runs to 40 degrees below zero, Mr. Trowbridge likes his job.

His face has been frozen several times, yet he wears no earmuffs or scarf. His wagon has broken down at times. The 20-foot hose has frozen; deep drifts have made progress almost impossible. But deliveries have never stopped.

He keeps a team of horses in a barn at home. Jack, the bay, is eight years old; Tuck, the white-faced mare, 12.

"They'll never do away with horses on this job," said Mr. Trowbridge. "Nothing else could get through a winter under the same conditions."

The coldest winter Mr. Trowbridge ever experienced was a temperature of 52 degrees below zero several years ago.

If the wagon gets stuck, he calls the city for a bulldozer. Sometimes in really bad weather he puts on an extra team and drives with four horses.

Delivering to each home two days a week, Mr. Trowbridge refills the tank from hydrants along the way. The tank holds 400 gallons. He refills it five times a day, six days a week.

"I'm pretty well my own boss," he says. "And the people are nice. I'm often invited in for a cup of tea or coffee. We work only a 44-hour week now. It used to be 60. And no one goes without water."

### EVERYONE HELPED

SHEPHERDSWELL, Kent, England.—Villagers collected a penny from every house to buy a birthday cake for the oldest inhabitant, Mrs. Mary Stupples, who celebrated her 100th birthday in December.

To Feel Right — Eat Right

## GEMS OF THOUGHT

### HONESTY

Honesty is one part of eloquence. We persuade others by being in earnest ourselves.—Hazlitt.

Be yourself, simple, honest, and unpretending, and you will enjoy through life the respect and love of friends.—Sherman.

Do your work, be honest, keep your word, help when you can, be fair.—J. P. Morgan.

The withholding of truth is sometimes worse deception than a direct misstatement.—Lord Napier.

Honesty of thought and speech and written word is a jewel, and they who curb prejudice and seek honorably to know and speak the truth are the only builders of a better life.—John Galsworthy.

Justice, honesty, cannot be abjured; their vitality involves Life,—calm, irresistible, eternal.—Mary Baker Eddy.

## Headlines Of 1948 In Film Sealed

Placing the "Canadian Headlines of 1948" print in the specially-sealed container, left to right, Jack Chisholm, Associated Screen News; Lorne Green, CBC; Hye Bossin, editor of Canadian Film Weekly, and John Fitzgibbon, of Paramount.

Highlights of outstanding Canadian events during 1948 are recorded for posterity in a motion picture film sealed in the newly-laid cornerstone of a vocational guidance school for crippled children in Toronto.

Entitled "Canadian Headlines of 1948", the film, as its name implies, is a bright, breezy report of what happened of importance in Canada and to Canadians during the year 1948.

Produced by Associated Screen Studios, Montreal, "Headlines" is being distributed through Empire-Universal exchanges.

This particular print is packed in

a water- and airproof, especially-sealed container and is unbreakably firmly in cement in the cornerstone. It is within the realm of possibility that Canadians of generations-to-come will be afforded an opportunity to review what pleased their ancestors in the worlds of sport, politics and fashions, and to compare disasters of that age with those of the far, dim past.

The new school for crippled children is to be known as "Vocational Village." It is being constructed from welfare funds raised by Variety Club of Toronto, Tent 28, a philanthropic organization of motion picture men and women.

The use of natural gas instead of coal as a steamboiler fuel for electric power generation, constitutes the most far-reaching single use for pipeline natural gas.

## HEALTH WEEK

### Termed Health Education's Outstanding Event

About 100 years ago, Ralph Waldo Emerson wrote that "The First Health is Health." That thought of Emerson's holds good today, and to give impetus to that fact, the Health League of Canada has designated the week of January 30th-February 6th as National Health Week.

This will be the fifth annual observance of an event which has assumed nationwide importance in that it has become an outstanding project in the field of health education. National Health Week has a two-fold purpose (a) to awaken in Canadians a consciousness of the value of good health, personal, communal and national; (b) to develop that awareness of the value of good health into such vigorous action as will obtain better habits and standards of health by personal behaviour and by legislation.

"Guard Your Health—Know How" once again has been chosen as the "Health Week" slogan. This gives emphasis to the fact that health to a great extent depends upon the "know how" of the people themselves. It is agreed that all the people must have access to modern scientific care and protection, but it should be emphasized that the people themselves must learn to heed advice and take advantage of health protecting facts and agencies which are available to them.

National Health Week is but a means of giving emphasis to facts which should be foremost in the minds of everyone during every week in the year. It is the hope of the Health League of Canada, which annually sponsors the observance in co-operation with official departments of health and of education, that every week will be considered a "Health Week" and that the "know how" gained during the week of January 30th will not be forgotten during the other 51 weeks of the year.

The use of natural gas instead of coal as a steamboiler fuel for electric power generation, constitutes the most far-reaching single use for pipeline natural gas.

## HOT WATER AT THE TAP

WE ARE showing a drawing of a circulating hot water pipe to prevent waste of water which is usually necessary when cold water has to be drained from a hot water supply pipe before the hot water is available at the faucet. The drawing shows the riser from the boiler and the branch pipes running to faucets as well as the return pipe and its connections back to the range.

Drawing of a circulating hot water pipe.

## Eclipses Of Both Moon And Sun Scheduled For 1949

NEW YORK.—Both moon and sun will go through eclipses this year. The moon's will be total and the sun's only partial.

The moon's first eclipse comes the night of April 12 and will be visible in most parts of the United States and Canada. The moon will be full that night.

An eclipse from the moon comes Oct. 6. Again it will be completely blacked out and will be visible in most parts of the United States and Canada.

The sun's eclipse show is a second-rate affair. The first, a 61 per cent. partial, will occur April 28, and will not be visible in North America. The second is coming Oct. 21, and is a southern hemisphere show. It will just miss being total and will be visible in Australia and the Antarctic.

Small rubies are sold for watch jewels, embroidery or "constructed" rubies.

## POSTMEN OFTEN ARE HANDED A REALLY HARD JOB

GREEN BAY, Wis.—Postmen here will tackle almost anything in the line of mail delivery once, but this one has them stumped.

A letter, postmarked Jordan, Minn., arrived with this address: "Richard Hansen's aun, Green Bay, Wis., who moved from Oshkosh not long ago."

It's a mite too vague, when you start with the fact 85 Hansens are listed in the directory.

### NO EYES

Earthworms have no eyes, but by primitive light-detecting organs they avoid the light, and come out of their burrows to feed and throw out their "castings" almost entirely at night.

## Weekly Tip

### ADHESIVE TAPE

Dark marks left by adhesive tape can be easily removed with finger nail polish remover.

## THIS CURIOUS WORLD

By WILLIAM FERGUSON

## EVERYBODY'S BUSINESS

The world's most successful men vary widely in their abilities. But they all know how to make decisions.

This ability is important to all of us, for life presents an unending series of choices.

The following suggestions may help you in making up your mind:

1. Don't lean on others. Seek their opinion on important matters if you wish, but make your own decisions.
2. Be sure you understand what your objective really is or should be.
3. If much depends on your decision, try writing down the pro's and con's in opposite columns. Studying the list will help you.
4. Don't argue with yourself too long. Usually it's better to act—and risk mistakes. We learn by trial and error.

As your decision-power improves you will become more a man of action.

When trying to decide how much life insurance you should own, or what kind of policy will best meet your needs, give careful consideration to your agent's advice. He is well qualified to analyze your needs and help you build a sound plan for protection and future income.

### NOTES AND COMMENTS

The World's Noblest Mountain?

Photo by Bert's Studio

Some years ago at Crow's Nest Lake an American tourist interrupted his fascinated study of Crow's Nest Mountain long enough to remark, "You know, friends, if that peak was in the United States some smart Johnny or other would have built a million dollar tourist resort within sight of it merely by using a picture of that peak as his main advertisement."

"I've seen most of the best known mountains in North America and, believe me, friends, that one there is the noblest sight of them all."

We, who were included in the group that Sunday afternoon to whom the sentiments were expressed, paid little attention to our widely-travelled American friend's enthusiasm for something Pass residents in general, and Coleman's in particular, take for granted.

Substituting the word "indifference" for "contempt" the old saying concerning familiarity just about sums up our general attitude toward this majestic and noble structure sculptured by Mother Nature.

We have done a little travelling ourselves since then and seen many of the highly publicized mountains our Yankee friend referred to and returned to the Pass with a complete realization of the simple truth contained in his statement.

None of them can match the "Crow" in its setting of solitary grandeur. It is certainly not the highest or largest peak in this world but these are not the final considerations in estimating the inspired effect on those whose appreciation of Nature's handiwork is measured by the standards of rugged and eternal beauty.

We suggest to the Boards of Trade involved that a start be made towards acquainting the travelling public with the desirability of viewing this masterpiece.

Primary efforts could be directed to the C.P.R. and Greyhound companies suggesting that conductors and drivers be alerted to direct the attention of their charges to the various attractions of the Pass in general and especially the glorious spectacle that we sincerely believe to be "The World's Noblest Mountain".

Still Getting Through—But!

While Inter-Pass traffic has been lucky enough to escape the impassable conditions that brought road traffic to a halt east of Cowley during the past week, conditions for Pass motorists were a definite hazard due to icy surfaces and encroachment of partially cleared snowdrifts that narrowed the right of way to a dangerous limit.

Fully realizing the prodigious amount of work being done by the Dept. of Highways in its attempt to keep the Southern Inter-Provincial system open we trust it does not mean a lessening of effort in the maintenance of the best possible conditions on those sections of the highway that connect the Pass towns.

May we join ours to the general accolades being directed this week toward J. J. McIntyre on his re-election to the presidency of the Western Canada Bituminous Coal Operators' Association.

It is quite evident that the

Western operators hold Mr. McIntyre in the same high regard as this community that enjoys his talents and unique personality the year round.

When one considers the many and varied interests that comprise the Western Coal Association the re-election of Mr. McIntyre to a position that requires multiple abilities is the signal for our sincerest congratulations.

H. T. Halliwell, former publisher of the Journal took a few healthy swipes at those interests currently engaged in the campaign to export Alberta's natural gas resources.

Via the editorial column of the Macleod Gazette he declared:

"What We Have We'll Hold"

Natural gas cannot continue to be brought from the ground indefinitely, for, like coal, or any other natural product from the earth, there comes an exhaustion point. If natural gas affords facilities for manufacturing plants, then this province should reap the benefit by promoting greater industrial development. We believe in this instance of "what we have we'll hold," and reap what benefits might accrue instead of granting privileges or concessions to private companies whose interests lie outside of Alberta.

#### EMPLOYMENT PICTURE BRIGHT IN CROWS NEST PASS AT PRESENT

Although all common and mining jobs are filled, with hardly a vacancy throughout the entire Crow's Nest Pass, the employment situation is good. F. J. Lote, manager of the Blairmore employment office which handles labor all the way from Burmis to Natal-Michel, told The Herald.

In Blairmore alone, only 67 men are unemployed, and most of these are aged miners, pointed out Mr. Lote. He added that some of these unemployed are workers in agriculture and other seasonal employment. He stated there are about 2,200 men employed by the seven bituminous coal mines in the Pass, exclusive of another 1,000 in the Natal-Michel area and hundreds more in the strip mines, which are operated by the big mining firms here.

However, he emphasized that the 1949 outlook is extremely bright as all industries, mining, lumbering, are expanding and creating more employment. The current boom of strip mining in the picturesque Crow is supplementing the under ground system of mining, and it does not use as many men.

However, one of the drawbacks that is holding the big mining firms from launching extensive expansion plans is the housing problem. Like the rest of Canada, the housing situation in the Pass can be summed up in one word "bad". There isn't a room or suite or house to rent in a private dwelling or otherwise, said Mr. Lote, adding that this applies to the entire Crow's Nest Pass.

**Sell Houses**  
He pointed out that not one of the mining firms in the Pass build houses and rent them to their employees. If any of the firms do build houses they sell them outright to the miners. "But some expansion is going on, and 1949 will see an increase in employment in the Pass area."

## The Art Of Tolerance Is The Art Of Thoughtfulness

Many of our best minds are concerned with the growth of cynicism and indifference that is spreading like a Cancer throughout the world.

In themselves they are not especially harmful to aroused communities or aroused nations.

The danger lies in the fact that from these twin negatives to all that is positive and progressive it is only a short jump to the World's No. 1 Ailment

### INTOLERANCE.

We can all play our part in resisting this type of Cancer merely by constant attention to the hopes and fears of our neighbors. Meet Cynicism with Faith—challenge Indifference with Intelligent Understanding.

### Miscellaneous Shower

Over 100 persons attended the shower for Miss Anne Kuchtya held in the I. O. O. F. Hall on Wednesday night, Jan. 19.

Anne was the recipient of scores of useful gifts to start off in the new role of house-keeping she will assume shortly. With a few well chosen words she thanked the gathering for their generous and practical tokens of regard for her future happiness.

Whist and a Bean contest were enjoyed during the evening with prizes going to the following: Mrs. Katherine Ulrich, of Blairmore; 2nd prize, Mrs. Elsie Feillor, and third prize to Miss Josephine Michalsky. Winner of the Bean contest, Miss. Irene Hazuka. Refreshments were served to complete the happy evening.

### LOCAL NEWS

Alex. Easton was confined to his home by sickness during the past week.

Mrs. M. McLean, of Macleod, is the guest of her daughter, Mrs. W. D. Fraser.

The Journal would like to thank Mr. and Mrs. L. C. Grant for their expression of good wishes for the coming year sent from Calgary where they now reside.

They were recent visitors to Blairmore as guests of daughter, Audrey (Mrs. Hago-Civitate). While here they renewed friendships with many of their old Coleman neighbors.

### SEVEN MOTOR PARTIES STALLED NEAR COWLEY

All Reported Safe Following Wild Storm.

Snowplows worked overtime in a desperate effort to keep Southern Alberta roads open during the past week. Seven motor parties were stranded all night east of Cowley following a wild storm that hit the Pincher-Cowley district on Sunday last.

All seven parties were reported safe despite failure of snowplows to keep the road open the face of the season's worst storm.

The Crow's Nest Pass highway west of Cowley was also blocked as plows failed to keep up with drifting snow.

### In Memoriam

TOPPANO-In Loving Memory of our dear Inez, who passed away Jan. 19, 1943.

I cannot say and will not say That she is dead she is just away!

With a cheery smile and a wave of the hand She wandered into an unknown land And left us dreaming, how very fair It needs must be, since she lingers there.

Think of her faring on, as dear in the Love of There As the Love of Here, Think of her still as the same, I say She is not dead she is just away.

Sadly missed by Angelo, Mary, Norma, Mother and Dad, sisters and brother.

### ROAD BLOCK AT LUNDBRECK

Intensive Manhunt Underway in Pass - Sighted in Cranbrook.

(Calgary, Jan. 17.)

An intensive manhunt is underway in southern Alberta today for a suspect in the Vancouver kidnapping of a 66-year-old engraver.

Police disclosed today that the suspect, was sighted in Cranbrook, B.C., yesterday and he was believed headed for Alberta via the Crow's Nest Pass. A road block was established at Lundbreck, Alta., about 60 airline miles west of Lethbridge, but the search has not been successful to date.

Calls Self MacMillan The suspect, reported to be travelling under the name of MacMillan, is wanted in connection with the kidnapping of Ernest Conduff in Vancouver last week. The elderly engraver was found chained in the basement of a Vancouver district home by police last week. He had been kept prisoner by a group of men who allegedly were trying to make him use his engraving skill to produce counterfeit \$20 bills.

The wanted man, possibly travelling with a woman companion, is described as 21 or 22 years of age, six feet tall, weighing 150 pounds and having sandy hair. He is reported wearing a light colored top coat and posing as a former army officer. He is believed driving a 1938 or 1939 model car bearing B.C. license plates.

Local R.C.M.P. officials confirmed that the manhunt is on in Southern Alberta and also confirmed the setting up of the road block at Lundbreck. However, they add nothing new has developed and the investigation is continuing.

### TRAIL SMELTER MAY USE ALBERTA GAS

Calgary, Jan. 12 - The big Consolidated Mining & Smelting company smelter at Trail, B.C. may one day be fueled by Alberta natural gas.

Testifying before the Dinning royal commission investigating Alberta natural gas reserves, A. F. Dixon of New York said yesterday the smelter would be fueled by Alberta gas if permission to export the gas is obtained. He is president of the Northwest Natural Gas company of Seattle which was incorporated to build and operate a \$100,000,000 pipeline to the Pacific coast.

The project would export Alberta natural gas to Spokane, Seattle, Portland, Vancouver and Trail.

At present the Trail smelter uses coal from both the Alberta and British Columbia sides of the Crow's Nest Pass for power.

The Seattle company would take on some heavy industries such as paper mills in Washington, Oregon and British Columbia, Mr. Dixon said.

He said he hoped it would be necessary to make application at some early date for the export of more gas than the presently-proposed Northwest line would carry. In other words, the company was looking ahead for and anticipating more business than it now sees. However, he agreed that in that eventuality, it would be proper to have the whole matter of reserves and Alberta requirements gone into again.

More gas would go to Trail than to Vancouver, at least in the early years of the pipeline, Mr. Dixon said.

### SEEN AND HEARD ON MAIN STREET

Harry Harris, looking snug and warm in his winter raiment, hurrying to post a last minute letter.

George Derbyshire, sr., imparting information to friends concerning the welfare of George, jr. The pleased animation with which he answered their questions would indicate that George, now of Coronation is doing alright.

Nurse Betty Fry looking anxiously at her watch as she stepped off Ferstay's bus and scurrying hospitalwards to take over a night shift.

The pleased look on Ed. Somshor's face when complimented on the interior of the Roxy.

The resigned countenance of Nick Nicholias as he lost the toss for coffees at a local beverage counter.

J. M. Ruston, trotting around as actively as ever on Elk business and his pleased surprise when reminded of other days when he dashed up and down the Pass arranging fixtures for his beloved softball outfit, Rush-ton's Rovers. Remember them?

Ed. Somshor displaying bruises suffered in a Commercial hockey league fixture and drawing our attention to the fact they had appeared in gorgeous Technicolor as a result of the "Duel in the Rink".

Bill Holyk proudly volunteering the information that the little feminine bundle that recently arrived at the Holyk home will be known as Cheryl Lynne.

Bill Martland calling out curling results and draws to a friend half a block away.

## SIDELIGHTS FROM THE SPIEL

With a gleam in his eyes that easily betrayed the fact that he would have given anything to be competing as a dancer constantly in bygone years, Bill Kerr, sr., was an avid spectator. Bill Roughhead, sweeping away with gusto despite what he termed a "sair" knee that earlier had Bill loudly declaring his inability to manage his beloved "stanes" at this years' event. "Sair" knee and all when spotted on Bill Duncan's rink.

The brightly hued tams and sweaters on display added a great deal to color to the various contests.

George Jenkins was spotted sneaking in a point getting last rock with all the guile he employed in getting goals for Coleman Canadians in his hockey heyday.

Alan Haysom paying strict attention to the experienced skipping of Jack Dugdale on the Ruymaker rink.

Harold Maslen's conscientious attention to his various official duties.

The good spirit of the Taber rinks, the Cook rink in particular being conspicuous by the happy noises emanating from whatever sheet they happened to be playing on.

Bill Duncan's roaring out of instructions to his rinkmates.

Robert Jenkins, sr. assisted by Mrs. George Jenkins and Dick Shone on hand to root for the all-Jenkins rink skipped by George.

Andy Dow and George Ford busily pebbling the ice.

Mrs. Joe Mission trying to help out at the refreshment stand and keep a practised eye on matches at the same time.

Jack Chalmers maintaining contact with friends scattered among the contestants on all four sheets of ice—and succeeding too! Jack was undoubtedly the most travelled man in the arena.

Jimmy Anderson gulping down a cup of coffee in his anxiety to return and watch the outcome of a certain game.

Veteran curlers Sam McDowell and F. M. Thompson looking very youthful in natty, bright red jackets.

Taberites were easily recognized by their Cowichan sweat suits, a startling contrast to the brightly hued tams and plaids worn by other rinks.

One of the most enjoyable sidelights was an impromptu sing-song staged by some of the rinks while awaiting their turn to engage each other in mortal combat with their brooms. The crowd to splendid advantage during the "concert" were Jimmy Park, Adam Wilson, the Jenkins brothers, Sonny Rich, Jim Kerr and the "Taber Glee Club".

Another treat was the deeply involved argument over the substitute player rule. Every authority within earshot was invited to express an opinion pro and con and the following contributed their legal judgements toward settlement of the friendly dispute: Joe Malan-chuk, Bill Antle, George Jenkins, George Ford and Lance Morgan, who summed up for the plaintiffs.

## SEE INCREASE IN COAL COSTS

Calgary, January 17.—Abolition of the contract system in western Canada coal mines in favor of a straight day wage of \$14.05 would mean substantial production cost increases, the Western Canada Bituminous Coal Operators said today.

Meeting with officials of District 18, United Mine Workers of America (U.M.W.) to discuss a new contract agreement, the association said experienced miners now earn daily wages from \$14 to \$17 under the contract system.

The association said a straight day wage would mean substantial wage increases and decreased production of coal.

The union earlier asked that the \$14.05 basic day wage replace the contract system for underground miners. Under the contract system, miners are guaranteed \$10.95 a day with bonus clauses based on the amount of coal mined by each miner.

No increase is being sought by the union for surface workers.

## To Talk Agreement

Union bargaining agents are scheduled to meet with the Domestic Coal Operators' Association later today to discuss proposals for a new wage agreement. They will continue negotiations with the bituminous operators tomorrow.

Operators said experience had shown that miners engaged on day wages produced approximately 40 per cent less coal than contract miners.

Operators counter proposals included a suggestion that all surface classification of employees now paid at the rate of \$10.07 a day be reduced to \$8.07 a day, a wage cut of \$2 a day.

Underground employees now paid \$10.07 a day would be cut in pay by \$1 a day.

## Ask Fund Abolition

The bituminous operators urged that the present welfare fund be abolished in entirety. The union is asking a 15-cent-a-ton increase on the present

five-cents-a-ton contribution to the fund.

A suggestion that the check-off system under which the coal operators deduct from employees' pay cheques initiation fees of \$50, monthly dues of \$2.50 a month, union fines and penalties, and special assessments, be limited to deductions of \$5 a month was also made by the operators.

Other proposals made by the operators urged the union to accept its legal responsibilities by applying for incorporation under the Alberta Companies Act, and accepting its responsibilities in collective bargaining by applying to the board of industrial relations for certification.

## Police Report

A summary of Chief William Antle's Police Report for 1948 would indicate that while Coleman is in no danger of becoming a crime ridden community, a small percentage of citizens did run afoul of the Criminal Code, Liquor Act, Traffic Act and Town By-Laws.

A breakdown of the report ranges from the plight of the citizen who was "Bastilled" for a period of three months to that of a pair of musically inclined motorists who were summoned for holding their notes too long on the horn.

Despite the fact that there were 102 cases in all ratepayers benefited only from the misdoings of those convicted under the Liquor Act. The Crown received \$319 in fines for correcting the wayward habits of those charged under the Criminal Code.

A total of 26 persons were charged under the Liquor Act. 22 of these paid fines from \$20 up to \$30. Two were given time to pay and immediately took advantage of the Court's leniency to take a "powder" for parts unknown. Up to now the parts are still unknown to the minions of the law who were issued warrants to arrest them if located.

The law batted a perfect 1000 in the stolen car division. Four were reported missing and all have since recovered.

They were not so fortunate in the small arms section. Two revolvers were burglarized as the result of housebreakings. An obvious follow-up to the gun thefts should have been armed robbery but none occurred and it is presumed they were kept as souvenirs or used elsewhere. There were only five car accidents reported during the year and none injured as a result. One car was slightly damaged. There were 58 cases under the Criminal Code classed as follows:

- 14 for assault.
- 3 for operating a gaming house.
- 26 for being inmates of a gaming house.
- 6 for playing board bill.
- 3 for damage to property.
- 1 for indecent exposure.
- 1 for non-support; case dismissed; no evidence to support.
- 2 for theft of property.
- 2 for causing a disturbance in a public place.

## PYTHIAN SISTERS INSTALL OFFICERS FOR 1949

Sister Beatrice Hopkins To Lead Temple in Coming Year. Coleman's Progressive Temple No. 3 of the Pythian Sisters held its installation of officers for 1949 at a special meeting convened on Jan. 12. Installing officer was Past Chief Nora Goulding assisted by Past Chief Mary Balloch as Grand Senior and Sister Mary Kosma as Grand Manager.

The following officers were installed for the coming year: Past Chief, Mary Clark; Most Excellent Chief, Beatrice Hopkins; Excellent Senior, Nora Goulding; Excellent Junior, Elsie Wilson; Manager, Belinda DeCecco; Mistress of Records & Correspondence, Kathleen Pank; Mistress of Finance, Nora Goulding; Protector, Lillian Lloyd; Guard, Doris Vincent; Pianist, Amy Penney.

Following the installation ceremonies the Sisters enjoyed their annual banquet.

## ST. PAUL'S UNITED CHURCH

Rev. R. Magowan, D.D. Pastor. 11 a.m. "Life's Four-Fold Challenge".

12:15 noon Sunday school. 7:30 p.m. "Rock of Ages" (3rd in series).

## ST. ALBAN'S CHURCH

Rev. A. S. Dewdney, M.A., B.D. 3rd Sunday after Epiphany. 9 a.m. Holy Communion. 2 p.m. Sunday School. 7 p.m. Missionary service.

The third Sunday after Epiphany is being observed as a Missionary Sunday throughout the whole Church in Canada. A special form of service will be used. The Vicar will speak on missionary work in the Canadian Arctic at the evening service.

St. Alban's Women's Association will hold a whist party in the Parish hall on Wednesday evening, Feb. 2. Conveners are Mrs. W. Purvis, Mrs. R. Pattinson, Mrs. Clarence Clarke. The public is invited.

## HOSPITAL NOTES

Coleman was presented with the rather dubious honor of being the "sickest" town in the Pass by an obviously perturbed correspondent for one of the "dailies" during the past week but investigation by the Journal failed to turn up other than the usual weekly crop of hospital cases.

Newcomers to the wards this past week were, Mrs. John Gray, Mrs. Stewart Downey of Blairmore, Mrs. Anne Gerney, Violet Galla, Mary McPherson, Joe DeLuca, Mrs. William Fraser.

We are glad to report that Ray Spillers and Francis Marconi were discharged earlier in the week.

John Sarasko underwent an operation during the week as also did actress Miss Alma Ory. Arthur Valin was transferred to a Calgary hospital for further treatment.

## JOSEPH FISHER INFERS THAT MUNRO IS A BLABBERMOUTH

The Medicine Hat news sometimes takes such a long time to reach our desk that we missed an interview one of its youthful hirslings recently had with Joseph Fisher, coach of the Hat Tigers, present occupants of fifth spot in the Western Canada Junior League. It was quite an interview, and some of the insults contained in it would do justice to arch plotter Munro, himself. We won't print the whole thing, but instead will list a few of the epithets Fisher hurled underhand in the direction of Munro.

1. "Munro is the biggest wind-jammer in Western Canada. Everytime he opens his mouth he creates such a gale that his hockey team travels twice as fast from the blast."

2. "He is the only coach in the entire history of hockey who manages his hockey team solely through the use of his lungs."

3. "If Scotty ever used his pointed little head for thinking, the unaccustomed shock and strain would cause him to keel over in a dead faint."

4. "He has a portable air heater which opens the large rap between his nose and his chin."

5. "No other coach can surpass the Bull of Bellevue when it comes to stalling during a hockey game."

And here is what Fisher had to say about the Bellevue hockey team: "Unfortunately for Bellevue Lions, a fair hockey team, they are operating under two severe handicaps. Firstly their arena is so constructed that it is almost impossible for a player to make a move without having a rabid fan slaver down the back of his neck. Secondly they are coached by Scotty Munro. They haven't got a chance."

Joseph also went on to say that if Lions would play as much as they talked they might yet manage to get out of the league cellar.

He ended the interview by saying: "My only regret is that we don't play Bellevue more often though I must admit it gets monotonous beating them so easily."

How do your feet taste, Joseph?

## DON'T HESITATE. Insist

## Sow Good Seed and Reap More Dollars

Many thousands of farmers have found that when they sow good seed they harvest better crops and so reap more dollars. The best seed obtainable in the world to-day is Canadian REGISTERED SEED, true-to-variety, with a pedigree ancestry, of high germination, free from weeds and other impurities, well cleaned, graded, guaranteed and sealed in the sack by the Canadian Seed Growers' Association and the Dominion Plant Products Division. Registered Seed is at a lower price now than it has been for some years past. This season offers a good opportunity then for farmers to use more Registered seed so as to improve the quality and yield of their crops. By using some Registered Seed any farmer will certainly reap more dollars.

SUGGESTED BY

THE BREWING INDUSTRY OF ALBERTA

## Annual Meeting Of St. Paul's United Church

Gratifying reports in every case were presented by the different organizations of the church at its annual meeting held on Monday evening, Jan. 17 in the church auditorium. The Pastor, Rev. R. Magowan presided.

Of special interest was the report of the Tuxis Square given by two of its representatives, Fraser Bernard and Jimmy Ewing. They spoke with appreciation of their leader, Mr. Ray Spillers, and also of the work of former Leaders, Mr. P. A. Dickleson and Mr. R. Pattinson, out of help given by the Pastor. Also of their funds, part of which was raised by fines for any misdemeanor on the part of any member, they paid \$30.00 to the Women's Association.

Mrs. Vernon Brown, president of the Young People's Union explained that their membership had suffered by the loss of those who were now attending University, but they had opened the door to younger groups made up of older C.G.I.T. girls and Tuxis boys, and they had been meeting monthly for a social evening. This keeps the organization in tact and lays the foundation for a strong organization in the Fall.

The Women's Association report, read by Mrs. W. Lonsbury, showed an excellent year, and reported \$1151.00 in the Bank toward the building fund. The W.M.S. report was read by the President, Mrs. R. Magowan and showed an increase of three members. Active and associate members show 27 women in the congregation interested in Missionary work. Clothing weighing 355 lbs. had been sent to the Canadian Church Relief Abroad. Mrs. E. Ash presented the financial report of the W.M.S. showing that the allocation for the year had been exceeded.

The Evening Auxiliary report was read by Mrs. P. A. Dickleson and told of sharing in the sending of clothing to Europe, and of help to the Cold Lake hospital, as well as local assistance to the Sunday school.

The Maintenance and Missionary report showed that the 20 percent increase asked of the congregation had been oversubscribed.

Mrs. Hugh Dunlop, the active representative for the United Church Observer reported that in 1948 there were 21 subscribers.

Mr. J. Owen, secretary of the board of trustees, reported that the title to the property was in the keeping of Rev. Dr. Thos. Hart, the Conference Custodian of Property Titles.

The Sunday school Supt., Mr. P. A. Dickleson, reported 120 members on the roll, with an average attendance of 78, and stated that this year had showed the highest level attained in the interest and efficiency of the teachers and staff. Every class had a devoted teacher.

The Treasurer's report, read by Mrs. MacKinnon in the absence of her husband, showed a substantial credit balance. This was so satisfactory that the congregation voted to transfer the sum of \$200 to the building fund.

Mr. W. Antrobus, Clerk of Session reported an addition of 11 members during the year. Five were removed, making net gain of 6 and leaving the membership roll at 138 at the close of the year.

The Pastor in reviewing the work of the year stated that while there was much yet to be desired in the way of interest yet the year was one of hopeful progress. He spoke of several reasons for encouragement, among them being the improved attendance at the weekly devotional hour, the high standard of loyalty and efficiency to which the Sunday school had attained, the healthy state of the work among the young with the capable leadership of Mrs. Vernon Brown in the Young People's Union, and of Mr. Stuart Murdoch and Mr. Ray Spillers among the boys.

The Pastor thanked all who had helped to make 1948 a year of progress, making special

mention of the leaders of praise, Mr. J. Emmerson and Miss Pat Fraser as organists, and Mrs. Fred Smith, whose success as leader of the Junior choir has been unique.

Following the report the Pastor gave notice to the congregation that he would retire from the active Ministry at the end of June, and therefore his position as Pastor would terminate at that date.

As a token of appreciation for his work the congregation voted a generous bonus, Mr. Magowan. In a brief speech expressed his deep appreciation of this generous gift.

The following officers were elected to the Committee of Stewards: F. W. Smith, J. Owen, H. Collings, P. A. Dickleson, S. Murdoch, N. MacKinnon, V. Brown, J. Allan, et al., Mrs. H. Dunlop, Mrs. J. Kerr, Mrs. J. Nash, Mrs. G. Horne.

The congregation expressed its thanks to the International Coal and Coke Co., and the McGillivray Creek Coal & Coke Co. for Christmas gifts of coal, to Mr. Ralph A. Thrall, president of the Summit Lime Works for a generous cheque from his company for the work of the congregation. The Pastor expressed in person to the Coleman Journal the thanks of the congregation for the generous space given to the reporting of

congregational activities.

The meeting was closed with prayer by the Pastor. Following the meeting refreshments were served by the Women's Association.

### MAY ADOPT SYSTEM OF DRIVERS' TESTS

Tightening of regulations relating to applicants for driver's licenses is expected to be recommended by a special legisla-

tive committee, according to information received by the Alberta Motor Association.

The committee is headed by Hon. A. J. Hooke, minister of economic affairs and includes H. G. Hammell, M.L.A. for Didsbury and H. B. Macdonald, M.L.A. for Calgary.

The committee was named to investigate the feasibility and prospects for a provincial government automobile insurance

scheme. It is understood that at the time it has dealt with the need of tightening the requirements as to granting drivers' licenses. This has been under study for some time and provincial officials have been obtaining data as to procedure elsewhere.

At their annual meeting held in Calgary in November the provincial directors of the AMA urged the provincial govern-

ment to require proper tests of first applicants for driver's licenses. These representations have been passed on to the provincial authorities.

It was recalled that Ontario and British Columbia have for some years required examinations of all applicants for motor vehicle driver licenses.

Advertising acts as a tonic to any head of business enterprise—

### TRANSPORTATION COSTS HAVE OUTGROWN THEIR BRITCHES

PRESENT LEVEL \$175 PER TON \$6 PER GAL \$4.00 \$174.960 \$90.632 65% 70% INCREASE

The above cartoon, published in the Christmas issue of The Spanner, house organ of the Canadian Pacific Railway, graphically illustrates that if the C.P.R. is to continue to pay its way and remain in business it simply cannot pay out for equipment, materials, wages and other expenses, more than it takes in. The "baby clinic" cartoon shows that transportation costs in relation to freight rates have outgrown their "britches" — to the point

where many items have increased more than 50 per cent over pre-war costs. The same unprecedented increase is true in such important items as rolling stock units as well as in materials and wages. In the latter two categories costs have jumped over 65 per cent and 70 per cent respectively since pre-war days while the pre-war freight transportation items has gone up only 21 per cent.

**PILOT SPENDS FIVE NIGHTS IN BUSH AT 40 BELOW ZERO**—Bush pilot's nightmare was the description given by Felix Cryderman, back in his Geraldton, Ont., home after five nights in the open in temperatures around 40-below zero after his plane crashed on icy Chorus lake, 50 miles east of Geraldton. The wrecked plane is shown here. The flight was a routine job of taking food to the Indians at Chorus lake. S.N.S. photo.

Air view of crashed plane on ice and snow showing tracks leading to the bush and also those made by Pilot Cryderman hiked for the woods with emergency rations, an axe and a bottle of milk tablets, and spent the first night with Indians. Veteran of the Fleet Air Arm in the Second World War, Cryderman is shown here. S.N.S. photo.

**MAROONED FIVE DAYS, PILOT RESCUED**—After five days marooned on the ice of Lake Chorus, 50 miles east of Geraldton, Ont., after his plane crashed, Felix Cryderman, 35, bush pilot has been brought safely to his home. Cryderman was spotted by a search plane as he emerged from a deserted cabin at Fox Lake, near where he crashed. Food was dropped, but Cryderman made a sign on the snow telling the forestry plane not to attempt a landing. A snowmobile was sent out from forestry camp 21, in which he was brought back to Geraldton. S.N.S. photo.

**CAN'T AFFORD TO WED**—The Marquis of Milford-Haven, 29-year-old cousin of the King, who hit the tabloids in the company of Actress Peggy Maley and Ambassador's daughter Sharron Douglas while in the U.S. representing a healing firm, is back in London. The marquis denied all rumors that he was engaged, saying he could not afford to marry. S.N.S. photo.

**FLIES 10,000 MILES, PROVES GRANDAD**—Grandfather in Toronto is called by David Cawston, 21, from New York after he arrived by air from Colombo. The Ceylon-born son of Mrs. Alfred Cawston, David already has flown 10,000 miles. He and his mother were coming home to spend the winter with his grandparent, Herbert J. Scott, whose wife died Christmas Eve. David's only comment after the long plane trip was: "It made my tummy sick." His parents are missionaries in Ceylon. S.N.S. photo.

**DADDY'S HELPER**—Light bulbs, Daddy?—coming right down! J. E. Readyhough, general store proprietor at Wallace, near Listowel, Ont., needs no ladder to reach merchandise on the top shelves. He just calls his daughter, Elaine, one. She stands on his hand as nonchalantly as though walking on the floor. S.N.S. photo.

**ELLIOTT AND FAYE AFTER "ACCIDENT"**—Elliott Roosevelt and his actress wife, Faye Emerson, pose smilingly for photographers in their apartment at New York, seemingly to refute stories that a marital spat was responsible for the left wrist wound for which Miss Emerson was treated at Vassar Brothers hospital. Miss Emerson is concealing her bandaged wrist in her muff. The Roosevelts vigorously deny that the wound was self-inflicted. Eight stitches were required to close it. After the private half-hour interview at the office of the Dutchess county attorney, it was announced that the "investigation is terminated and the matter was closed." S.N.S. photo.

**BERLIN AIRLIFT** by the western powers to circumvent the Russian blockade of the German capital still is carrying coal and food into the city despite mechanical difficulties, weather obstacles and Soviet red tape. Symbolic is this picture of eager Berliners watching from war-bombed buildings as a huge plane flies in food to the Tempelhof airport. S.N.S. photo.

**DAD SHOTS DAUGHTER, THEN SELF**—A jealous father, William Brown, 48, shot his daughter Isabelle Brown, 18, and then turned the gun on himself. The tragedy occurred at the home of the Browns at Durham, Ont. The girl had spent night at home of her fiancé's parents after being afraid to go home. She returned with him the next morning and was met by dad with shotgun blast. Taken in happier days, this photo of Isabelle Brown and Stewart Newell, her fiancé, was "gag" picture during visit to Toronto. S.N.S. photo.

**ROYAL EXILES LEAVING CHURCH**—Ex-King Michael of Rumania and his wife, Princess Ann of Bourbon-Parma, leave the Russian Orthodox church at Nice, France. The former king delivered an address at the service, in the course of which he hoped the day would come when the people of Rumania will be able to express themselves as freely as peoples of western Europe. S.N.S. photo.

**PHOTOGRAPHER HERE**—Shown as he arrived in New York on the Queen Elizabeth is Cecil Beaton, British court photographer who has with him more than 100 exclusive pictures of Prince Charles, infant son of Princess Elizabeth and the Duke of Edinburgh, and second in line to the English throne. He says the pictures will be released very soon. S.N.S. photo.

**UNITED NATIONS NURSE**—Miss Elizabeth Calmers, 35, sits at her desk in the Palais de Chaillot, Paris during United Nations meetings. Miss Calmers is in charge of health conditions at the United Nations. With three nurses to assist her, Miss Calmers assures 24-hour-a-day service at the U.N. clinic. S.N.S. photo.

**DISAPPEARANCE OF COUPLE STILL A MYSTERY**—If Mr. and Mrs. Robert W. Brown, both 70, have drowned near Stewacke, N.S., it is not likely their bodies will be recovered until the spring break-up. Superintendent J. Howe, of the R.C.M.P. at Halifax said. The couple have been missing since Dec. 18 when their locked car was found on the Truro highway, 40 miles from Halifax, on a river bank. "The river, a tidal one with an unusually muddy bottom, is now frozen over and it is impossible to carry on dragging operations. There is, of course, no indication the couple are in the river," the superintendent said, "but then again their is nothing to indicate they have met with foul play. I understand both are in failing health." Above are Mr. and Mrs. Brown who had been living in the Maritimes for the past few years. S.N.S. photo.

**HAPPY NEW YEAR FOR N.Y. FAMILY**—Happy New Year for Mr. and Mrs. Anthony M. Mazarella, of Port Chester, N.Y., became an actuality when their three-year-old son, Anthony, shown here with his mother, left a Toronto hospital after a successful blue baby operation performed by Dr. Gordon Murray, famous Canadian surgeon. S.N.S. photo.

## OUR COMPLETE SHORT STORY—

## THE STORM

By ELIZABETH BROWN

Hatred Blew Away  
With The Storm

MAMIE moved out of the house into the cabin, taking with her the old iron bed, the wardrobe and two rocking chairs. From the barn loft she resurrected the cracked cookstove; it smoked but this she accepted with grim fortitude. Let Arnnall see to what poor quarters he had driven his mother!

Arnnall and Lucy, his bride, returned three days later. Mamie saw the door closing behind them; she pictured Arnnall seeking his mother; he'd find the room empty. Then he'd see the smoke from the cabin chimney; he'd come, then, in search.

Presently Arnnall flung open the cabin door. "What'd you want to do this for?" he demanded. "Why did you move all your things?"

The black eyes, so like his own, stared back. "I told you I wouldn't live in the house with Dencie Baron's daughter," replied Mamie through tight lips, gazing to the door with him. "You and her can have the house, I'm staying in the cabin."

She had thought to bask in the pleasure of his pleading; instead, Arnnall said: "You think in doing this you're going to hurt Lucy and me, but it won't work that way. It's you that's going to suffer from your own stubbornness!"

When he had gone, she warmed the peas, ate cold corn bread and buttermilk. The thought of Lucy cooking supper, doing the things for Arnnall she had done, was gall.

Lucy—the daughter of Dencie Baron who, thirty years before had married and deserted Mamie's youngest sister, Sara. Sara had died of a broken heart and Mamie had never forgiven Dencie. Let other folks say he'd reformed when he married Belle, Lucy's mother, let them say that he had turned out to be a decent father and husband. He'd taken Mamie's sister and now, through his daughter, he had stolen her son. She hated him, she hated both of them.

Mornings, Arnnall would bring in the eggs and milk; he would bring her provisions from town. Yet scheme though she did, Mamie could not get him to linger. She'd say: "Sit down and eat a bite, I'm having another cup of coffee," meaning: "Stay with me a little while, Arnnall, talk with me as you used to do." He always refused. "I'm not hungry, Lucy feeds me well." And so the winter passed. Mamie would see Lucy about, going to town with him, to church. Lucy and Arnnall, Arnnall and Lucy. Only Mamie was alone, wrapped in the mantle of her hatred. The cattle no longer moved on stiff legs in the pasture; spring was trying to come through; the earth let out a fragrance of stirring things. It was too early for a real spring that February; unnatural warmth pressed down on the Alabama farmland; winter fought back, trying to put off its defeat.

On a Saturday Arnnall went to town. Alone. Lucy was going to have a baby late in the summer; not that Arnnall had mentioned the matter. Ida, who helped her with the wash, had told Mamie about it, about Arnnall's hope for a son. Mamie, her face immovable, had accepted the news with excitement. Arnnall's child, her grandchild, and then her mouth had tightened. Lucy's child, Dencie's grandchild.

Mamie went about her chores listlessly. The sky was heavy with unshed rain; clouds hung low. In the yard a few hens were already clucking on the roost, so dark had the day become. As she stood on the porch, Mamie saw Arnnall's wife come out, a white blur in the dimness. "Arnnall ... maybe he'll be coming

home soon," thought Mamie, her heart beating unsteadily. Mamie felt her own loneliness. Lucy was alone too, Lucy, who was carrying Arnnall's child. The older woman turned back into the cabin. She gathered up a quilt, blew out the oil lamp. Then she went out, setting her feet upon the path she had not traveled for many months.

Lucy saw her coming. In a voice that trembled, she called: "What—what's it going to do? It's so dark—I'm scared."

"I don't know what it's going to do," answered Mamie, stopping on the steps. "Why doesn't Arnnall come?" cried the girl.

His mother answered with a confidence she did not feel: "Town is twenty miles away, like as not it don't look this bad over there." She added quickly: "You quit your worrying. Just blow out what lamps you got lit, get you a couple of quilts and come with me."

The girl hesitated. "Where you going?"

"To the storm pit." Rain began to spatter. "Get along with you now. Better safe than sorry."

Without further words, the girl followed to the slope which held the storm pit. Together, they tugged at

the wooden door; a yellow-red glow began to color the sky before they could force an entrance. Groping, Mamie found the half-rotted bench she remembered. "Nothing we can do now but wait and pray," she whispered.

There was a roar as of a dozen freight cars. The two women clung together. Then as suddenly as it had appeared, the centre of the storm passed, leaving torrential rains.

"It's—it's gone," whispered Mamie. "We can get to the house now." If there's a house left, she thought grimly. Outside, it was already lighter. The women peered out upon a scarred world.

"The house—looks like nothing but the chimney is hurt," said Mamie. The chinaberry tree was gone, sprawled along the earth ... she looked at the cabin. There was only the twisted brick foundation, the timbers of the cabin lay scattered for a mile across the beaten cornfield.

"Your cabin—" began Lucy. Mamie nodded. "Yes ... it's gone. I reckon a lot of things blew away with that storm ... it's a good thing I got me a house to go to."

Hand in hand, through the rain, the two women made their way up the tangled path to the house, together ...

Write plainly size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

## Western Briefs

## RECEIVES LETTER OF THANKS

HEWARD, Sask. — Miss Shirley Webber recently received a letter from Her Royal Highness, the Princess Elizabeth, thanking her for her message of congratulation on the birth of the prince.

## HONOR RETIRING MAYOR

NOKOMIS, Sask. — A special meeting of the Nokomis town council was called, in honor of retiring Mayor William Mason, who served as mayor of Nokomis for over 20 years. L. L. Lymburner, elected mayor for the coming term, presented Mr. Mason with a memento of his many years of service to the town.

## \$2,000,000 IN CATTLE SALES

WILLIAMS LAKE, B.C. — Cattle sales from the Williams Lake area brought cattlemen more than \$2,000,000 in 1948. Sales through the Cariboo Cattlemen's Association alone came to \$1,700,000, and estimates place the amount sold individually at more than \$300,000.

## REVENUE HIGH

EDMONTON—Trebling the amount first estimated, Alberta government revenue from royalties and rentals on mining and other lands, including oil, will exceed \$12,000,000 in the fiscal year which ends March 31, it was reported unofficially.

## WINS SCHOLARSHIP

SASKATOON. — Wilfred L. Cody of Pilger, Sask. was the winner of the Mantle memorial scholarship awarded to the most outstanding member of the farm boys' camp at the 1948 Saskatoon industrial exhibition.

New Timely Tip  
For Motorists

OTTAWA — A timely tip for motorists is offered by F. W. Bedard, in recommending the use of strips of asphalt shingles under the rear wheels of an automobile to gain traction on difficult road surfaces.

"Be sure to put the rough side down in placing the roofing strips close to the wheels," declares Mr. Bedard.

Motorists, he said, would find the roof sections better than gunnysacks in driving a car out of deep snow or from ice surfaces. Several layers of the asphalt strips could be carried on the floor of the rear compartment of a car where they would not take up much room.

The oldest covered bridge in existence is thought to be at Lucerne, Switzerland, built in 1333.

## PEGGY

## FIGHT TO THE DEATH

WOODLANDS, Man. — Arthur Withers of Winnipeg, on sighting two buck deer fighting with their horns locked, tried to free their horns, but couldn't get close enough to the struggling animals. Finally one pushed his opponent over and fell on him. Withers stepped on the neck of the smaller buck and sprang the horns free. It jumped up and went away. The other buck was dead, its neck broken.

Anti-Flood  
Project To  
Start Soon

OTTAWA—Work on an anti-flood project for British Columbia's Okanagan Valley is expected to start as soon as funds for the work are provided in this year's estimates.

The project will cost between \$2,000,000 and \$2,500,000, with the cost split three ways, the Federal and provincial governments each paying 40 per cent and municipalities concerned paying the other 20 per cent.

A Dominion-Provincial board under the chairmanship of F. G. Goodspeed, assistant chief engineer of the Federal public works department, started to plan an anti-flood scheme four years ago, and presented its report in 1946. Part of the surveys necessary for completion of final plans were delayed this year by high water, but the work now is proceeding.

To Feel Right — Eat Right

Increase Seen  
In Saskatchewan  
Crop Acreage

SASKATOON. — Saskatchewan farmers are expected to increase their wheat and oats acreages in 1949, M. E. Hartnett, deputy minister of agriculture, said.

Acres in summerfallow and rape-seed production this year are also expected to be increased. At the same time, he said, Saskatchewan production of barley, rye and flax is expected to decline in 1949.

Mr. Hartnett, in an address to the 41st annual convention of the Saskatchewan agricultural societies' association, held as part of the university farm week, quoted figures compiled on the basis of a survey made by the provincial agriculture department. He said the estimated acreages for 1949 were computed from the replies made in 1,400 enquiries sent out to Saskatchewan farmers.

The province's wheat acreage forecast for 1949 was 15,800,000, he said. This should be an increase of about one and half million acres over the 1948 wheat acreage, and a jump of 20 per cent. over Saskatchewan's wheat acreage in 1944.

## STILL GOING STRONG

HUDSON BAY, Sask. — Still going strong on a district farm is a hand-built wagon box made in 1902 of native tamarack and obtained by the present owner in 1920 for \$20.

RECIPES

## CHOCOLATE FUDGE ICING

2 ounces bitter chocolate  
1½ cups sugar  
½ cup water  
1 tablespoon butter  
1 teaspoon cream of tartar  
1 tablespoon light corn syrup  
1 teaspoon vanilla  
2 tablespoons thick cream  
Grate the chocolate and combine with the sugar, water, butter and cream of tartar. Stir and mix thoroughly over a direct heat, bring to boil and cook, without stirring, to a very soft ball stage (234 deg. F.). Remove from fire and let stand until cold. Add vanilla and beat until thick enough to hold its shape. Thin slightly with cream until it is of the right consistency to spread on sides and top of cake.

## CUSTARD SAUCE

1 pint milk  
Butter, size of walnut  
1 well-beaten egg or 2 yolks  
1 teaspoon vanilla or almond extract  
½ cup sugar  
Melt butter and sugar in milk; stir this gradually into egg. Heat over low fire until custard thickens. Add flavoring just before serving. Serve with cornstarch or blanc mange pudding. Very nice poured over fresh berries in the absence of cream.

If brown sugar is stored in a bread box it will keep moist. 2812

### MAY TIGHTEN UP CAR LICENSE REGULATIONS

According to a recent article in an Edmonton paper, the government committee which has been studying automobile insurance may recommend a tightening of the restrictions governing the issuing of automobile drivers' licenses but it is not expected that anything definite will be done before the spring of 1950.

The committee, consisting of the Hon. A. J. Hooke, Minister of Economic Affairs, H. B. MacDonald, M.L.A., and H. G. Hammett, M.L.A., have held several meetings and will no doubt present their recommendations to the government this winter.
